Pre-proposal Questions and Answers

Q1. What does the County's I-Net look like (connections, buildings, etc.) and how is it being used?

A. The County's I-Net is owned and managed by Loudoun County Government. The network covers about thirty (30) miles and connects to approx twenty (20) government buildings in the Leesburg area.

The I-Net carries internet and voice traffic between government buildings and directly connects to the county data center.
